

# NIMROD

Nimrod is an excellent new variety from Advanta Seeds UK that is NIAB listed for the first time in 2006. It combines an early harvest with massive dry matter and high starch yields.

- Maturity Class 8 - very early to harvest
- Excellent starch yields
- Massive dry matter yields - the highest MC8+ variety available for Less Favourable sites

## High Dry Matter and Starch Yields from an Early Harvest

**Dry Matter Yields (NIAB Less Favourable Sites - 2006 list)**

- Outyields Goldcob, Vernal and Hurrikan - worth an extra £30 per acre

**Harvest Window (NIAB Less Favourable Sites - 2006 list)**

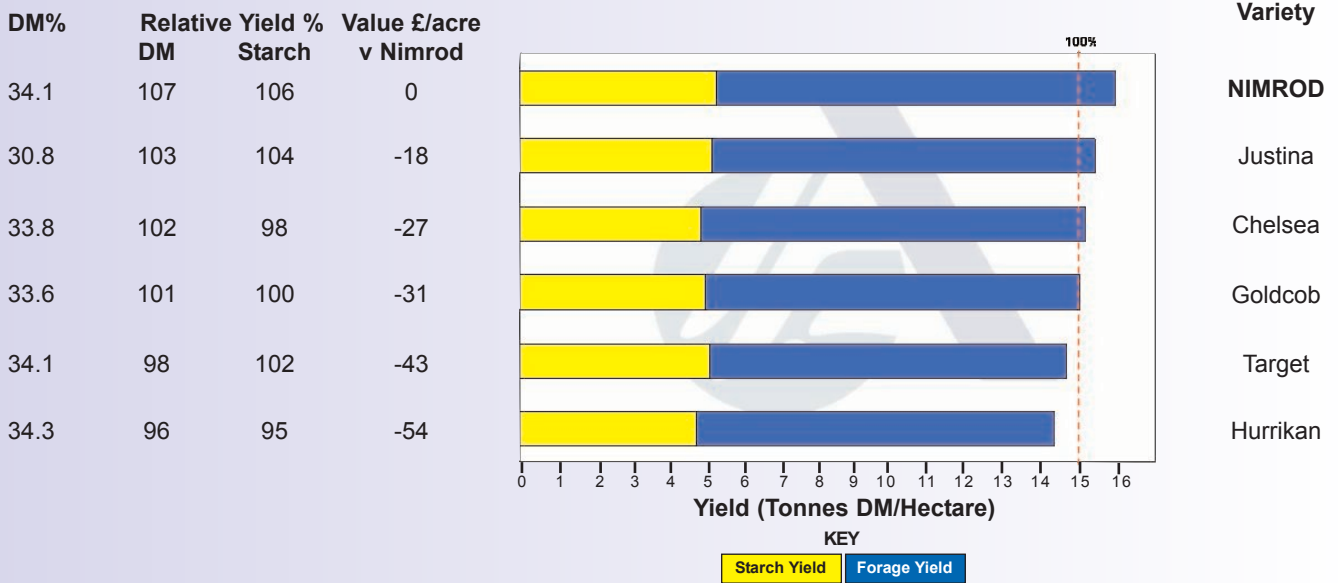

**Maturity Class 8**  
Very Early

**Early Vigour 9.3**  
Superb!

**Standing Power 8.0**  
Very Good

Maturity Class

Starch yield t/ha DM

**Nimrod starch yield is worth £206 per acre.**

Starch valued at £100 /t DM (based on winter wheat at £60 per tonne).

- Starch has been proven in CEDAR trials to be the single most important energy source reported in the ME figures for maize silage, meaning more efficient milk or meat production.
