

FIELD MARGINS & BUFFER STRIPS

Mixtures

A range of grass based seed mixtures designed for sowing on Entry Level Stewardship, Set-Aside and Cross Compliance areas.

ENTRY LEVEL STEWARDSHIP

Basic Habitat

20%	Chewings Fescue
15%	Common Bent
7%	Smooth Stalked Meadowgrass
15%	Rough Stalked Meadowgrass
7%	Timothy
3%	Cocksfoot
6%	Meadow Fescue
5%	Tall Fescue
20%	Sheeps Fescue
2%	Crested Dogstail
<u>100%</u>	

A mixture designed by FWAG to enrich the environment. The mixture contains grasses that are the food plants of several butterfly and beetle larvae. The mixture can be sown alongside hedgerows and water courses.

Sold in 8kg, 1 acre units

Nesting Cover

44%	Cocksfoot
31%	Creeping Fescue
25%	Timothy
<u>100%</u>	

A mixture designed to create natural nesting areas for birds. The mixture consists of tufted grasses, which can be sown in spring or autumn.

Sold in 5kg, 1 acre units

WM2 (Pollen and Nectar)

10%	Crested Dogstail
20%	Meadow Fescue
20%	Chewings Fescue
20%	Sheeps Fescue
3%	Late Flowering Red Clover
8%	Birdsfoot Trefoil
6.5%	Sainfoin
2.5%	Common Vetch
10%	Smooth Stalked Meadowgrass
<u>100%</u>	

A mixture of nectar and pollen rich plants and non competitive grasses aimed at maximising areas for foraging insects, bees and butterflies.

Suitable for sowing as the pollen and nectar seed mixture within the Entry Level Stewardship Scheme (ELS).

Sold in 5kg, 1 acre units

Wildlife Value

18%	Cocksfoot
15%	Creeping Red Fescue
10%	Chewings Fescue
10%	Timothy
10%	Smooth Stalked Meadow Grass
20%	Crested Dogstail
10%	Meadow Fescue
1.5%	Teasel
2%	Yarrow
2%	Burnet
1%	Field Scabious
0.5%	Common Knapweed
<u>100%</u>	

Wildlife Value has been designed to improve habitats for both birds and insects and includes a selection of wild flowers.

Sold in 5kg, 1 acre units

Beetle Bank Mixture

20%	Cocksfoot
20%	Chewings Fescue
20%	Timothy
10%	Sheeps Fescue
20%	Meadow Fescue
10%	Smoothstalked Meadowgrass
<u>100%</u>	

This mixture is suitable for grass margins and beetle banks and includes tussock-forming grasses such as Cocksfoot in combination with Fescues to form dense cover. It provides excellent nesting habitat for Skylarks and Partridges as well as food plants for grassland butterflies.

Suitable for the Entry Level Stewardship Scheme (ELS).

Sold in 10kg units

Butterfly & Bee (Pollen and Nectar)

10%	Red Clover
5%	Birdsfoot Trefoil
5%	Sainfoin
30%	Chewings Fescue
45%	Sheeps Fescue
5%	Common Browntop Bent
<u>100%</u>	

This mixture adds a splash of colour and is a rich source of pollen and nectare to attract butterflies and bees.

Suitable for the Entry Level Stewardship Scheme (ELS).

Sold in 5kg units
