

Growers Guidelines

Kingmix

Seed Rate

3kgs acre.
Pack size supplied 3kg, 1 acre pack.

Sowing

Method	Drill preferred
Depth	1 inch
Row Width	18 - 20 inches
Timing	April – May

Soil

Type preferred	Suitable for a wide range of soil types. (Min pH 6)
Seed Bed	Use stale seedbed where possible
Fertiliser	100kg N/ 50kg P/ 120kg K per hectare. Into seedbed.

Management

Weed Control	Herbicide usage is not recommended.
--------------	-------------------------------------

Kingmix can be sown in adjacent blocks to make weed control easier, but this would not be eligible for set-aside under the Wild Bird Cover Option Scheme.
